In PRESS mode the camera swings around a pivot point on the side of the court to follow the ball as it moves from one side of the court to the other. MINI-GAMES

AROUND THE WORLD
In this one-on-one, turn-based game, players try to go "around the world" by making a series of shots from different locations arranged in a circular arc around the basket. Each time a basket is made, the scoring player advances to the next position to attempt the next basket. To win, a

player must advance from the starting position on the right side of the basket to the last position on the left side, and then all the way back again. If a basket is missed, the ball is handed off to the next player, who starts at the last position that he or she left off.

HOT SHOT

Hot Shot is a one-on-one, turn-based game. Each player can select from several marked shooting locations on the court, each with its own point value. There are three rounds of play, and the kid with the most points at the end of the third round is the winner.

The gray circle icon highlights the opponent player in possession of the ball.

Shot Meter

☐☐☐☐☐☐☐☐◻■■

For the most accurate shot, shoot the ball when the Shot Meter at the bottom of the screen is full (this corresponds to the highest point in the player's jump).

Button Control: Press and hold the **A Button** to jump and charge the Shot Meter, then release to shoot.

Stylus Control (if Touch Gameplay is ON): Tap and hold the shot meter located at the bottom of the screen.

POWER-UPS

Do well on the court and you'll boost your Power-Up Meter. Fill the meter to gain amazing abilities. All power-ups are described in the following chart.

Offensive Power-Ups

Super Dunk – Dunk the ball from nearly anywhere on the court for a guaranteed basket.

Hot Hands – Fire up your accuracy so you're almost guaranteed to make a basket from anywhere on the court.

Cherry Picker – As soon as your team has the ball, one of your teammates gets teleported right under the basket so you can pass to them for an easy shot.

Robot Ball – Watch the ball become robotic and automatically find its way into the basket!

Chance Shot – This is a mean one: next time your opponent scores a basket, their score is reduced by twice the point value of that basket, while your score is increased that amount.

I Am Rubber – Your opponent's next shot bounces off the backboard and sails all the way across the court to score an automatic 3 points for your team.

Defensive Power-Ups

Frostbite – Make your opponent miss almost all of their baskets with this one. Your blast of air makes their shot accuracy plummet.

Magnet Steal – Like a powerful magnet, your player can steal the next pass attempted by the offense with ease.

Fly Swatter – Smack down any of your opponent's shot attempts without even trying.

Butterfingers – This power-up makes the ball super slick like butter, so it pops out of your opponent's hands when touched.

Hover – Hold down the jump button and your player hovers in the air! Great for blocking shots.

Jumping Bean Ball – Boing! Boing! The ball bounces erratically, so the other team can't retain possession.

General Power-Ups

Ice Cream Truck – Your opponents can't resist the allure of the ice cream truck, and are distracted until you successfully make a basket.

Nap Time – The other team is getting very sleeeeepy… now's the time for you to go for the basket.

Super Speed – Your team goes temporarily hyperactive, making it easy to outrun your opponent.

Sticky Feet – This power-up would be great for your opponent if they wanted to climb walls… but unfortunately for them it just makes them feel like they're walking on flypaper on the court.

110% Juice – This juicy power-up resets your entire team's stamina to full status (including the players on the bench).

Fatigue Indicator

Next to each player's name in game you will see a Fatigue % value. The Fatigue % shows the amount of energy that a player has remaining. **Note:** The Fatigue % does not appear when the Fatigue option is set to OFF (see "Options" on page 8).

GAME SUMMARY SCREEN

The Game Summary screen displays overall stats between periods and at the end of a game. When finished viewing the Game Summary screen between periods, press the **A Button** to continue. See "Player Stats" on page 23 for details on the stats categories.

EXTRAS

Select Extras from the Main Menu to view the following:

Player Cards – Check out the Backyard Kids and the kid versions of NBA stars. Learn about each player's biography and basketball skills. Use the **+Control Pad** and press the **A Button** to select a player and view his or her information.

Credits – View the list of people who helped create *Backyard Basketball*.

MULTIPLAYER

You can play a *Backyard Basketball* wireless multiplayer game using two Nintendo DS systems. **Note:** Two *Backyard Basketball* Game Cards are required.

STARTING WIRELESS MULTIPLAYER MODE

- Insert a Backyard Basketball Game Card into each system and switch the systems ON.
- At the Main Menu, both players select the Multiplayer option.
- Player 1 selects a slot, and waits for Player 2 to join the same slot.
- When both players are listed on the screen, Player 1 can press the **A button** to proceed.
- Select Regular game for classic three-on-three basketball against your opponent, or choose Around the World or Hot Shot to go one-on-one. See "Mini-Games" on page 15 for one-on-one game rules.

OFFICIAL BBA RULES

Backyard Basketball uses rules similar to those used by the National Basketball Association, with a few modifications.

SCORING

2-Point Field Goal: A successful shot taken from inside the 3-point line is worth 2 points.

3-Point Field Goal: A successful shot taken from beyond the 3-point line is worth 3 points.

Free Throw: A player is given two uncontested ("free") shots at the basket from the free-throw line when a foul or violation occurs. Free throws begin after the fifth team foul in a quarter.

TIME

- There are four 2-, 4- or 6- minute quarters in the game (see "Options" on page 8).

- There is a 24-second shot clock. The shot clock resets when a shot is made, when the ball hits the rim, or when a turnover occurs. Possession goes to the opposing team when the shot clock reaches zero.

- Each team receives three time-outs per half, and one timeout per overtime quarter (as needed).

- Overtime consists of one-minute quarters (as needed).
